

Requirements for Uploading Photos

The digital images prepared for uploading must be 1200 pixels high. The width of the image is variable in proportion.

The images must also be stored with 72dpi in JPG format in the RGB color space for viewing on the web and none may exceed the maximum file size of 3 MB. We recommend storing the photos with the web optimization function available, for example, in Adobe Photoshop.

The images must be 1200 pixels high

All Requirements for Uploading Photos at a Glance:

File Format:	JPEG (*.jpg)
Colour Space:	RGB
Maximum File Size:	3 MB
Height:	1200 Pixel
